

Ancillary services

ITP always goes the extra mile for its clients, that is why we have designed and developed **these services** to ease our partners operations.

ITP and its clients have common goals; one of them is the optimization of maintenance works. For that, **ITP has developed the most up-to-date repair technologies** and has **the best engineering team** for workscope definition and fleet optimization.

Ancillary services

Fleet management support

Tailored and turnkey Fleet Management Programs developed by our powerplant experts to maximize engine time on-wing, improve reliability and reduce operator direct maintenance costs.

- Engine removal plan optimization and most convenient work scope definition
- Spare engine and leased engine plans
- Engine on-wing performance analysis and diagnosis management (engine health monitoring)
- On-site event support
- Engine Technical Recommendation Guidelines
- From hard time to on condition program transition
- Fleet reliability studies
- Fuel efficiency engine operations

Benefits:

- Maximize time on-wing intervals
- Engine removal plans better fitting your operations
- Optimize engine reliability and fault isolation processes
- 24/7 Support Team
- Improve operational reliability
- Customized assistance and ad-hoc services
- Reduce operating costs
- Ease to implement, fully adapted to customer needs

Fleet management is all about planning... I may say that this is the greatest factor, the way in which every difficulty is foreseen, and precautions taken for meeting or avoiding it. Victory awaits to

whom has everything in order - luck, some people call it. Roald Amundsen.

Engine health monitoring

Especially interesting for maintenance plans based and according to mission type. ITP is able to monitor your engine health for improving repair programs, including hard-time to on-condition transitions. In case an engine needs to be removed, ITP will take into account operational and fleet requirements. Diagnosis and prognosis health management will mean cost reductions and savings for your company. Anticipate rather than react and you will improve your performance.

Engine lease

ITP pool of engines available at clients' request during engine shop visits to keep you flying. ITP has local on-consignment engines worldwide for easier and faster serve our clients.

24/7 AOG desk

Available at +34 662 142 142 and aog@itp.es

Boroscope inspection

Diagnose engine status prior to any intervention, removal, buy, sale... with latest technology and highly qualified personnel. Boroscope inspections are digitally available and performed

anywhere. No matter the urgency and place, ITP can perform boroscope inspections at your convenience. You just have to contact iss.onsite@itp.es.

Logistics support

ITP provides the best handling and transport solutions based on our worldwide experience and partnership with best forwarders. ITP has even designed and produced customized boxes and engine containers. ITP provides peace of mind from the moment your engine is ready to go.

Field Rep Support

A set of engineering tailored assessments and coaching addressing:

- The engine fleet status
- System technical training
- Maintenance operations guidance
- The engine related on-time performance evaluation
- Engine Maintenance Recommendations Programme

You can choose the duration of the support from one week to permanently. Be careful we know you'll love it!
